

Announcement for Partnership Building 2013

Dear friends of youth work,

for “partnership building” and the concrete organization of a youth exchange in 2014 with a youth-specific oriented topic, we plan an international meeting in Eichstätt (Bavaria, Germany).

The encounter takes place in the context of the European program

- Youth in Action, Action 4.3 Youth Support Systems, Partnership Building - .

(More detailed information:

http://ec.europa.eu/youth/youth-in-action-programme/overview_en.htm or
<http://eacea.ec.europa.eu>)

From each country, **6 to 8 youth leaders or persons with an active involvement in youth work** can participate. (Minimum age: 16 years, no functionaries)

The meeting is organized by the special field “Kommunale Jugendarbeit” (communal youth work) of the administrative district Eichstätt and the local “Kreisjugendring” (governing body of the local youth associations).

As the planned encounter will be within the support program “Youth in Action” of the European Commission, the self financing will amount to **30% of the respectively resulting travel costs.**

From **July 22nd to July 29th 2013** (without arrival and departure), we will concern ourselves and deal with topics such as participation, political interaction, intercultural dialogue and non-formal education and start the planning of a youth exchange in 2014 in Eichstätt, Bavaria, Germany.

Our meeting will be completed by proposals in cooperation with regional youth associations, a presentation of different models of open youth work as well as the exploration of regional sights.

All participants are invited to prepare **agenda highlights independently** according to the topics named above and to carry them out during the action. The methods therefore are

arbitrary – how about team-building, traditional dances or a discussion about your country-specific association work and your role as youth leader? -

Is your interest aroused? Then answer us **until November 12th 2012**. You will receive more detailed information to our intended project upon receipt of the expression of your interest via e-mail.

We are looking forward to your feedback signals!

Kind regards, Your Planning Team
